

BOW DYNAMICS – UNEVEN speed / pressure with VIBRATO effect		
What is it	What to do	It feels like
1. CRESCENDO VIBRATO CRESCENDO	STARTING slow bow & light pressure gradually INCREASING speed with pressure. INCREASING vibrato speed proportionally alongside bow speed and pressure.	→ SPEED INCREASING IN SYNC
2. DIMINUENDO VIBRATO DIMINUENDO	STARTING slow bow & light pressure gradually DECREASING speed with pressure. DECREASING vibrato speed proportionally alongside bow speed and pressure.	→ SPEED DECREASING IN SYNC

HAVE YOU LEARNED IT	Action Words / Task	PRACTICING LINK – GO TO:
1. CRESCENDO / VIBRATO CRESCENDO	INCREASE IN SYNC BOW PRESSURE / SPEED with VIBRATO SPEED	→ SCALES FOR EVEN SOUND (TONE) & DYNAMICS → POINTS 2 & 3
2. DIMINUENDO / VIBRATO DIMINUENDO	INCREASE IN SYNC BOW PRESSURE / SPEED with VIBRATO SPEED	→ PRACTICE THE SCALE ADDING INCREASING / DECREASING VIBRATO SPEED
